

Remarks

This amendment is also made to conform the application with the provisions of 37 CFR §§1.821 through 1.825. A replacement Sequence Listing is attached. The numeric identifier <223> in SEQ ID NOs: 1, 3, and 5 has been deleted since it is not necessary. In addition, a split codon has been corrected in SEQ ID NO: 37 beginning at position 91146. Applicants respectfully assert that the "gct" nucleotide is equivalent to the "Ala" protein at position 24.

Applicants respectfully assert that these corrections are obvious inadvertent errors in the sequences, and Applicants respectfully submit that no new matter has been introduced.

The Commissioner is hereby authorized to charge any fees under 37 CFR 1.16 or 1.17 as required by this paper to Deposit Account No. 19-0065.

Respectfully submitted,

Frank C. Eisenschenk, Ph.D.
